

PRODIM

PRODIM FACTORY

The complete solution to digitize and optimally manage the flow of information in your stone shop

Connect Field, Office *and* Production

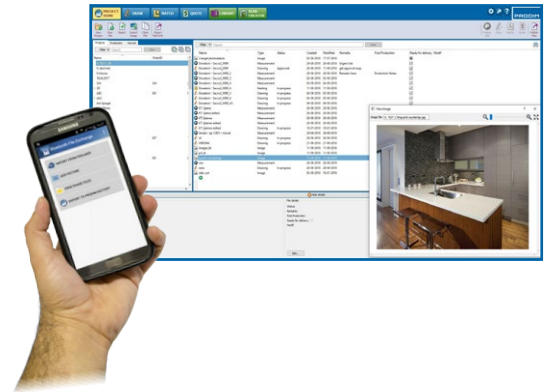

PROJECT HOME

GET ALL THE INFORMATION YOU REQUIRE TO MANAGE YOUR PROJECTS USING ONLY ONE INTERFACE

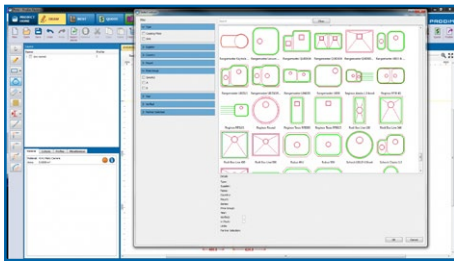

Project home is the core module of the software connecting all available modules together. Main functionalities:

- **Create and manage projects**
 - Follow project statuses
 - Add measurement jobs
 - Add production jobs
- **Import, export and explore project files**
 - Project data and photos (also via Proliner File Transfer mobile app)
 - Proliner measuring data
 - Drawings
 - Production files and reports
- **Customize and personalize company information**
- **Customize the information and fill in fields to be used to your requirements**

LIBRARY

SET UP YOUR DIGITAL LIBRARIES TO STANDARDIZE PROCESSES, SAVE TIME AND ELIMINATE MISTAKES

Basic data is organized in the Factory libraries. Manage collections of drawing shapes, materials, cut-outs, profiles and uncategorized fields to be used. Main functionalities:

- **Factory provides libraries for:**

Materials

Cut-outs

Profiles

Miscellaneous

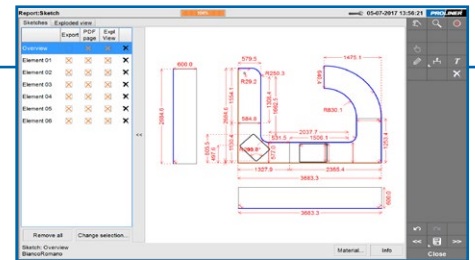

- **Build-up and manage your own libraries or import a comprehensive pre-filled library created by Prodim**
- **Libraries fields to be shown are fully customizable**
- **Filter options for easy exploration**

EDIT CT

PROLINER SOFTWARE ON YOUR LAPTOP OR DESKTOP

The same software that you are used work with on the Proliner for checking, editing and finalizing digital templates.

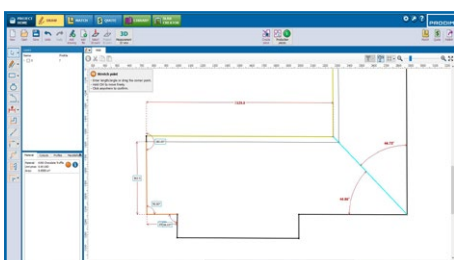

Check, edit and finalize your measurements

DRAW

CREATE QUICK DIGITAL SKETCHES OR DETAILED DRAWINGS FOR YOUR CUSTOMER IN AN INSTANT

Factory Draw is a fast and easy-to-use CAD drawing tool that further extends the functionalities of EDIT CT. Main functionalities:

- **Create quick digital sketches based on basic shapes and dimensions**
- **Import, edit and finalize Proliner measurements directly or via EDIT CT**
- **Simple and easy to understand user interface with helpful pop-up instructions**
- **A complete tool set to capture all the primary dimensions and integrate the customer's wishes**
- **Add basic shapes, materials, cut-outs and profile edges from your libraries**
- **Add walls and sawing seams**
- **Divide your design in pieces and use these for nesting and slab matching**
- **Export your drawing as DXF and PDF-files to be used for quoting and production**

SLAB CREATOR

BUILD YOUR DIGITAL SLAB INVENTORY, GET A CLEAR OVERVIEW OF WHAT IS IN STOCK, ORDERED AND RESERVED AND USE YOUR SLABS FOR DIGITAL MATCHING

Factory Slab enables stone shops to digitize slabs and add them to their slab inventory. Main functionalities:

- **Digitize slabs in three possible ways**
 - **Standard materials with fixed dimensions:** Simply add a slab, its dimensions and a material picture directly into the software
 - **Fixed setup for unique slabs:** Use a fixed and pre-calibrated setup with camera and green screen in front of which you place slab.
 - **Flexible setup for unique slabs:** Measure 4 points on a slab with the Proliner and combine it with a picture. This can be done anywhere offering maximum flexibility.

**Add slab
Fixed dimensions**

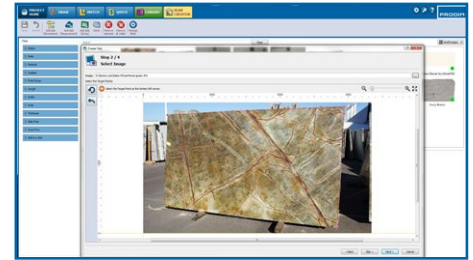

**Add slab
Fixed setup**

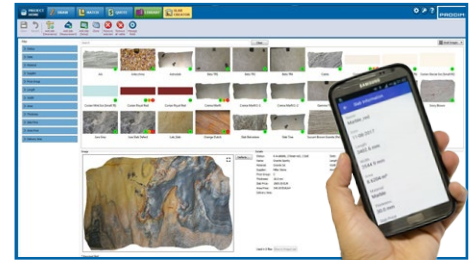

**Add slab
Flexible setup**

- **A digital slab inventory**
 - A clear overview of all slabs in stock, ordered and reserved
 - Slab defects can be marked and are clearly visible
 - Digitized slabs can be used for slab matching with the Factory Match module

Digitize your slab inventory on-site

**No more guessing.
See what slabs are in stock,
ordered and reserved**

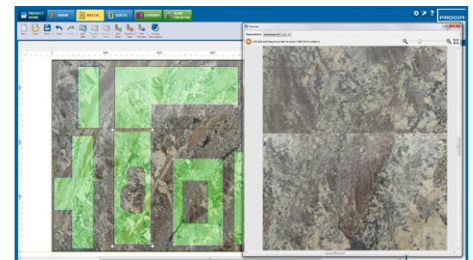

MATCH

CREATE PERFECTLY ALIGNED SLAB PATTERN DESIGNS FOR YOUR CUSTOMER

Slab match drawn pieces on slabs from your digital warehouse. Avoid marked defects and move pieces until you get the perfectly aligned patterns your customer is looking for. Main functionalities:

- **Choose unique slabs from your slab library created with Slab Creator**
- **Use pieces from Factory Draw**
- **Slab match pieces on your unique slabs**
 - Move and rotate pieces to fit on the slab
 - Automatic indicator if a piece doesn't fit
 - Match slab patterns using a real-time preview function
 - Defects are clearly marked to take into account
 - Add multiple slabs
- **Export your matching as DXF and PDF-files to be used for quoting and production**

**Slide your pieces over the slab
to look for matching patterns**

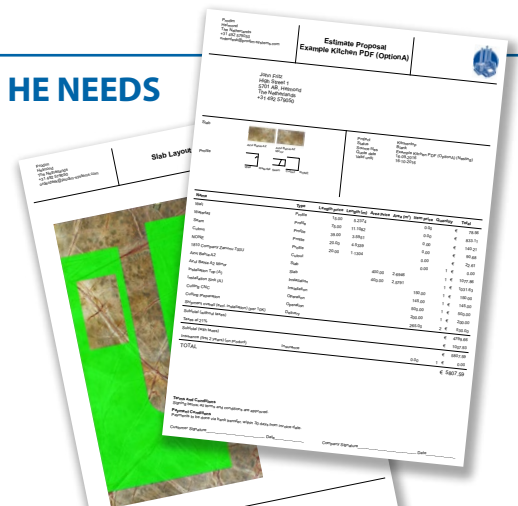

QUOTE

PROVIDE YOUR CUSTOMER ALL THE INFORMATION HE NEEDS WITHIN A FEW STEPS AND CLOSE THE DEAL

Automatically create quick quotes or detailed slab matched quotations. Main functionalities:

- **Quotations can be fully tailored to your needs using settings and libraries.**
- **Factory automatically generates quotes based on Proliner measurements, Factory Drawings (with or without matching data) and the prices you have indicated for your materials and services**
- **Generated quotes can still be customized afterwards**
- **Add files to your quotation (drawings, design previews)**
- **Export the quotation (PDF) and sent it to the customer**

CONNECT FIELD, OFFICE AND PRODUCTION

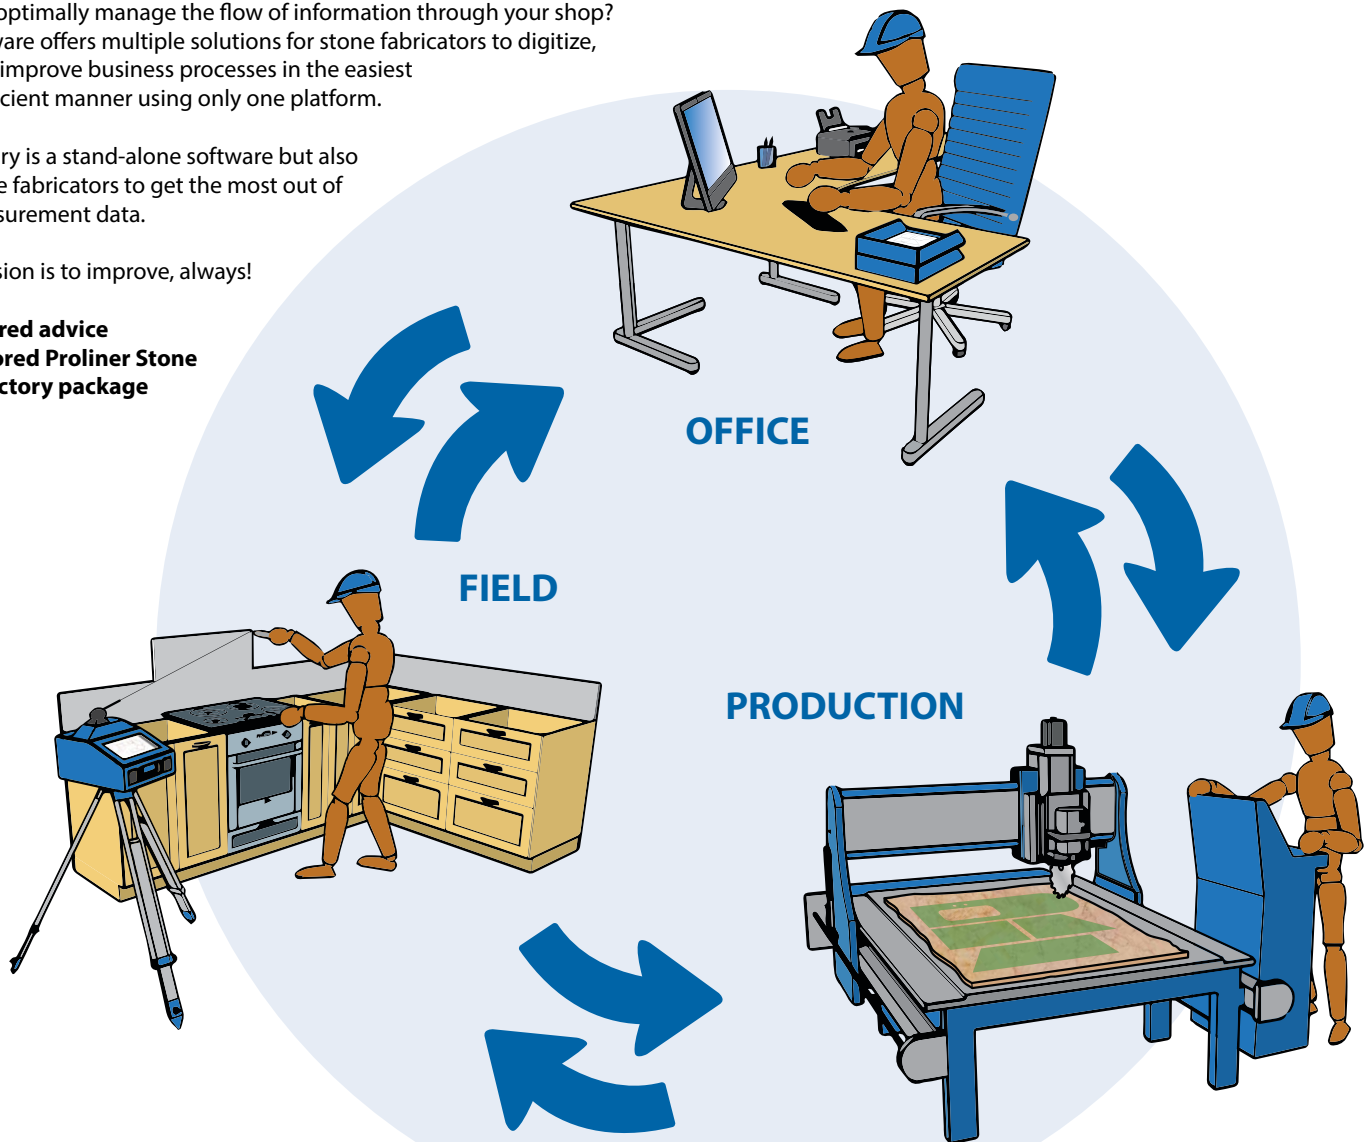

PRODIM FACTORY SOFTWARE ENABLES STONE SHOPS TO TAKE DIGITIZING TO THE NEXT LEVEL

Factory is the answer to challenges most stone shops face today:
How do you optimally manage the flow of information through your shop?
Factory software offers multiple solutions for stone fabricators to digitize,
manage and improve business processes in the easiest
and most efficient manner using only one platform.

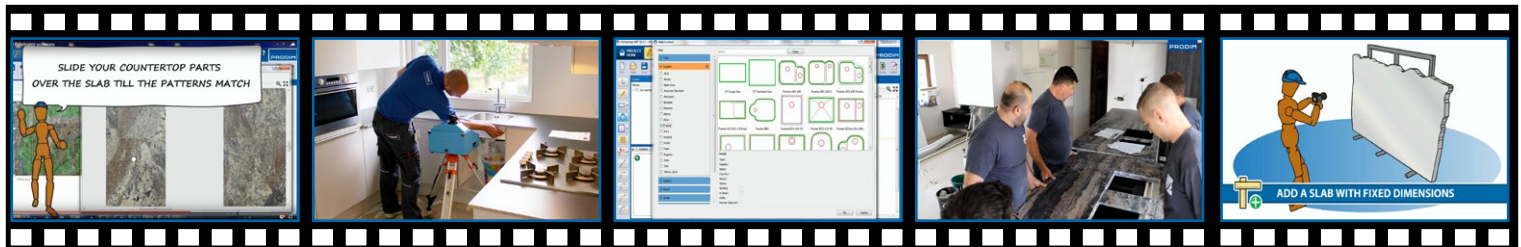

Prodim Factory is a stand-alone software but also
enables stone fabricators to get the most out of
Proliner measurement data.

Prodim's mission is to improve, always!
